## SUMMARY

Solid experience with management within IT and related areas. Recent focus on blockchain initiatives and innovations. Ability to quickly adapt and respond to new technologies, business areas and challenges. Relevant areas are IT, blockchain, management, startups, strategy and business development, but related opportunities are also welcome. Particularly appreciate international environments and impulses.

Result oriented and ambitious. Positive, outgoing and structured. Prefer a combination of working individually and collaborating with others. Large working capacity and always focused on delivering optimal results.
